Full-Stack Developer & Systems Specialist | Next.js, Golang, AI Solutions & Linux Infrastructure

Core Skills & Competencies

Web & Backend Development
Next.js · React.js · Node.js · Golang · TypeScript · Tailwind · REST APIs

AI & Agentic Systems
OpenAI API · RAG · Model Context Protocol (MCP) · AI Automation

Databases & Tools
PostgreSQL · Git & GitHub · WordPress Plugin Architecture

Linux & Infrastructure
Linux · Docker · Nginx · CI/CD · SSL · Zero-Downtime Deployments

Mobile & Hybrid Apps
Flutter · Capacitor · Progressive Web Apps (PWA) · Android

Spoken Languages
Urdu (Native) · Punjabi (Native) · English (Proficient)

Professional Experience

Full-Stack Developer
2023 - Present
Domin8x Digital (via Upwork)
Remote

- Architected and built **AI 404 Redirect**, an intelligent WordPress plugin with semantic URL matching, automated content discovery, and SEO-compliant redirection (301/302).
- Developed real-time analytics dashboards for redirect performance and implemented conflict-detection engines.

WordPress · PHP · OpenAI API · SEO Optimization

Linux & Infrastructure Administrator
2020 - Present
Production Server Engagements
Remote

- Administer production Linux servers hosting web platforms; configured Docker containers, Nginx reverse proxies, and automated CI/CD pipelines with zero-downtime releases.
- Maintained 99.9% uptime with proactive system monitoring, security hardening, and SSL management.

Linux · Docker · Nginx · CI/CD · DevOps

Featured Projects

Lead Full-Stack Developer
2023 - 2024
YTGPT — YouTube AI Assistant Platform
Remote

- Spearheaded development of an AI platform utilizing **React.js**, **Tailwind CSS**, and a high-performance **Golang** backend service for YouTube intelligence and media processing.
- Integrated **Model Context Protocol (MCP)** enabling secure, context-aware LLM analysis, automated transcript reasoning, and channel analytics.

React.js · Golang · Tailwind CSS · MCP · OpenAI API

Mobile Application Developer
2022 - Present
Cross-Platform & Hybrid Solutions
Remote

- Engineered responsive cross-platform mobile apps using **Flutter**, **Capacitor**, and **PWAs**, integrating secure REST APIs and native features.

Flutter · Capacitor · PWA · Android · REST APIs

Education

BS in Information Technology (BSIT) — 5th Semester
2024 - Present
Govt. Graduate College of Commerce, Gujranwala
Gujranwala, Pakistan

- CGPA: 2.44 / 4.0 | Coursework: Software Engineering, Database Systems, Computer Networks.

Diploma in Information Technology (CIT) — Score: 2383 / 3200
2024
Christian Technical Training Center
Gujranwala, Pakistan

- Core studies in Web Development, Programming Fundamentals, and Hardware & Networking.

Certifications

Nov 2021	**Go (Golang) Programming (Cert ID: CT-C0OUA7FI)**, Sololearn	*Online*
Sep 2021	**React + Redux Development (Cert ID: CT-QLO3FHDX)**, Sololearn	*Online*
Oct 2019	**C++ Object-Oriented Programming (Cert ID: CT-9TZB1LUY)**, Sololearn	*Online*
